

This vibration insensitive lens is designed for use with large area and line scan sensors in harsh conditions such as many industrial applications. With a wide range of accessories such as focus mounts, extension tubes and adapters, the lens can be combined with a wide variety of industrial cameras. Very low chromatic aberrations plus low geometric distortion provide a very high image quality from edge to edge over a wide magnification range.

### Key features

- Modular system
- Low distortion
- Low chromatic aberrations
- Large image circle

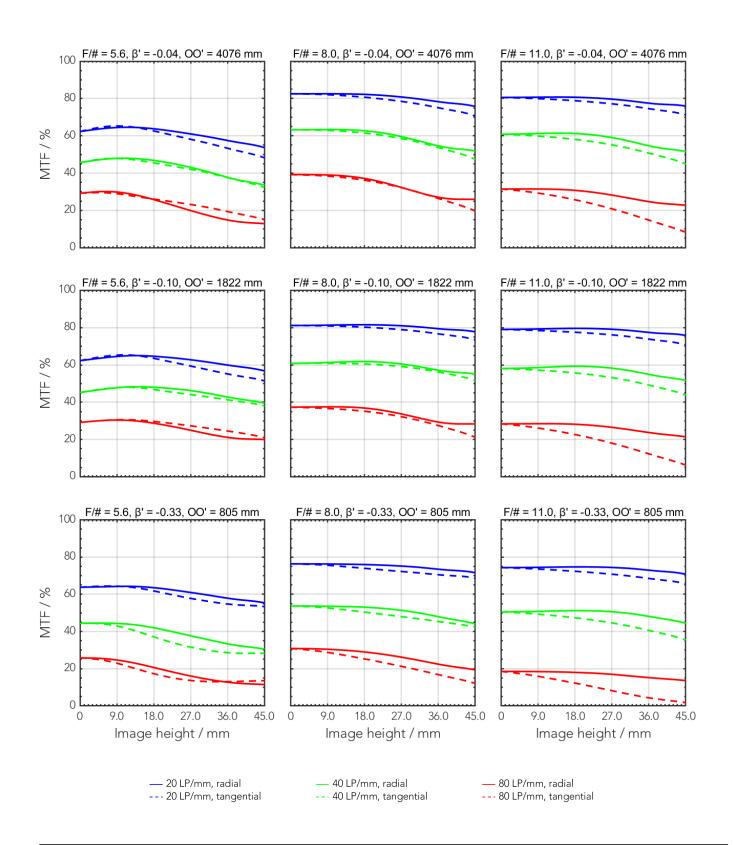

### **Applications**

- Machine Vision
- AOI (Automated Optical Inspection)
- FPD/PCB inspection
- Logistics
